4. Purchase of student school insurance unless waived by a parent or guardian. If school insurance is purchased, it should be noted that **football insurance** is a separate entity.

If he/she does so on the weekly eligibility check, the athlete will be ineligible for the next week. **If the athlete fails two half-credit (9 weeks) subjects in any term, the athlete becomes ineligible for the next term. If a student fails two full-credit (2 terms) classes, the student will be ineligible for the next two terms. BOTTOM LINE - PASS EVERYTHING. YOU ARE HERE FOR AN EDUCATION.**

It shall be understood that payment of fees does **not** guarantee athletic participation. If an athlete drops or is removed from a program, such fees paid shall **not** be reimbursed.

ATHLETIC CODE

Extracurricular and interscholastic activities are strictly a voluntary program. Those who participate must give extra effort and time. The student has the privilege of participating in a well organized program of special interest for which the school provides coaches, sponsors, equipment, and facilities.

Because interscholastic athletics are voluntary activities and because those participating represent their school, Oswego District 308 expects the conduct of those who try out and participate in these athletic programs to be of the highest order. Student participants must conduct themselves as good citizens and exemplars of their schools at all times, twelve months of the year while in and out of season. The District particularly expects student athletes to meet high standards with regard to academic requirements, honesty, school citizenship, and sportsmanship. This Code of Conduct applies regardless of whether school is in session or the participant is "in season" for an athletic team. It applies at all times, including both school related and unrelated activities and events. Students whose behavior or conduct does not meet this standard will lose the privilege of participating in District sponsored or organized athletic programs.

Consequences for Violations of the Code of Conduct

The consequences for violating this Code of Conduct shall be based on a student’s entire high school sanctioned athletic participation (includes all 4 years of high school participation). Offenses and consequences are carried over from one season to the next and from one school year to the next until the entire penalty is served.

First Offense of the Code of Conduct: The student shall be suspended for 50% of the IHSA approved regular season contests for the current sport, including state series or playoffs as appropriate. If the full suspension cannot be served due to the conclusion of that sport’s season, the suspension shall carry over to be applied to contests of the next season in which the student participates.

Second Offense of the Code of Conduct : The student shall be suspended from all District 308 athletic programs for one year (twelve calendar months).

Third Offense of the Code of Conduct: The student shall be suspended from all District 308 athletic programs for the remainder of the student’s high school career.

Opportunities to Reduce Penalties:

Students who commit violations of the Code of Conduct related to tobacco, alcohol, drugs and/or controlled substances may seek a reduction in their penalty for the first such offense during his or her career as follows:

1. If the student voluntarily admits to a coach, dean or athletic director (who is not yet aware of the offense) a tobacco, alcohol, drug or controlled substance violation of the Code of Conduct, the suspension may be reduced by twenty five percent.
2. If the student who voluntarily admits to the offense also participates in and successfully completes a District approved counseling program at his or her own expense, the suspension may be reduced further to only ten percent of the IHSA approved contests.

Students who commit a second violation of the Code of Conduct related to tobacco, alcohol or drugs and/or controlled substances during their high school career may seek a reduction in their penalty for a second such offense if the student participates in and successfully completes a District approved counseling program at his or her own expense. Any student who provides evidence of having done so will have his or her suspension reduced to 50% of the IHSA approved contests for each season in which the student participates during the applicable twelve month period.

PROCESS FOR ISSUING PENALTIES AND CONSEQUENCES

Students who are alleged to have violated this Code of Conduct shall meet with the School’s Athletic Director to explain the incident and/or “tell his or her side of the story” prior to any penalty or consequence being applied. Students who seek to challenge a consequence administered under this Code may seek a review of the Athletic Director’s determination and consequence by filing a written request for review and submitting the request to the Athletic Director within five calendar days of the determination of the consequence. The request for review shall be heard by the Building Principal. The review process shall be informal and allow for a meeting between the student and the Building Principal to offer an explanation, tell his or her side of the story and/or demonstrate that the Code was not violated. The decision of the Building Principal shall be final.
