

Fall sports are nearing completion. The only teams still competing are our girls' cross country team and the girls' swim team. We wish them the best of luck at sectional and state.

We had a very successful fall athletic season at Oswego East. Our girl's cross country team finished **first in conference** for the first time in school history as well as qualified the entire team for sectionals. **Ariel Michalek** was the conference champion. Great Job! Both our boys' soccer and girls' tennis took second place honors in conference this year. Furthermore, three members of our tennis squad qualified for the state meet. **Kelly Zaprzal, Kylee Jackson and Jourdan Jackson** all competed well with the Jackson's finishing in the sweet sixteen in state. Finally, for the first time ever, we have finished the fall sport season leading in the Allied First Bank Crosstown Trophy competition. **Oswego East has 4.5 points to Oswego High School's 2.5 points.** We look forward to extending that lead during the winter season.

As we start to head into the winter season, please remember to register yourself with highschoolsports.net to stay current with any schedule changes we might be making. Another web based program the athletic department has to offer is Corecourse.gpa.com. This program will help you track your athlete's core course GPA and help you prepare them for the world of collegiate athletics. It is free to all Oswego East parents and students. All division I, II and III colleges will be looking for this GPA information when recruiting athletes. This website also includes NCAA recruiting information. Students should see their counselor or the athletic department for more details.

The athletic department would like to congratulate the following athletes on their success this fall season:

Stephanie Awad – All Conference Tennis

Erinn Brooks – All Conference Tennis

Brian Conlee – All Conference Golf

Rachel Holzrichter – All Conference Cross Country

Jourdan Jackson – All Conference Tennis, Sectional Champ, State Qualifier,
