

Traughber's Student Council & Rotary Club Annual Coat Drive

If you have ever been cold, you can probably understand the feeling of not knowing if you'll ever be able to get warm again. Every day there are people like you who are cold, but they don't have the extra clothes or coats that might be able to help them warm up.

That's why Traughber's Student Council is working with the Rotary Club to ask you to help people who never have the chance to get warm by participating in the Rotary Foundation's Annual Coat Drive.

What we are asking is for students to look through their closets for coats of any size and color. As long as they are in good condition and parents approve, students should then bring them to school and put them into the collection box inside the school's main door.

Last year our school district was able to donate over 950 coats - each and every one was given to someone who needed it.

We will be collecting coats until Friday, December 18. Please help us with the coat drive, but more important, please help those who otherwise will be cold this winter.

Thank you.
